The Commemorative Coins Of Italy

By JOHN S. DAVENPORT
Knoxville, Tenn.

A paper presented to the Columbus Convention of the A. N. A.

The Kingdom of Italy, as kingdoms go, is not an old one. What we know as Italy today did not come into final being until 1870, when, during the Franco-Prussian war, Napoleon III was obliged to withdraw the French troops which he had stationed in Rome to protect the Pope to guard his own capital. Italian troops marched upon the metropolis, the Pope was dispossessed of all secular authority until 1929, and Rome became the capital of a united peninsula. Thus there has been a rather brief time for the occurrence of national events worthy to be commemorated by special issues of coins.

The first such coin, however, came interestingly enough before Italy had reached its present dimensions. In 1859 the diminutive kingdom of Sardinia and Piedmont, ruled over by the royal House of Savoy, had persuaded Napoleon III, by a promise of the cession of the province of Savoy and the city of Nice to join with her in a war against Austria, to free the Austrian dominated Italian provinces of Lombardy and Venezia from foreign rule. Napoleon backed out before the job was completed, so only Lombardy was freed, but Count Cavour, the astute Minister of King Victor Emanuel, withheld the territory promised to Napoleon until he was sure the latter would not interfere with the Piedmontese plan for an enlarged kingdom. The duchies of Parma, Modena and Tuscany voted to join the union of Lombardy and Piedmont; the Papal provinces of Romagna and the Umbrian Marches were conquered by an army of the northern states; and Garibaldi, with an army of patriots formed with the connivance of Cavour, subdued the island of Sicily and the kingdom of Naples in the name of a united Italy. This had all taken nearly two years, so it was not until March of 1861 that Victor Emanuel was proclaimed King of an Italy, which lacked still the remainder of the Papal States and the Austrian-held Venezia for a united kingdom. To celebrate this union there was struck at Florence, the capital of the former Grand Duchy of Tuscany, a five-lire piece with the date March, 1861, inscribed thereon. The obverse has a nude head of Victor Emanuel II with the inscription "Vittoria Emanuele II. Re d'Italia." The

reverse reads "Cinque Lire Italiane" and at the bottom "Firenza" and "Marzo—1861" separated by a fasces. The arms of the kingdom form the major part of the design.

Fifty years passed before the completely united kingdom issued its first commemoratives, and these came to mark the fiftieth anniversary of the events described above. The series consists of four coins in two very similar types, a 50 lire in gold and a 5 lire in silver in one design, and a 2 lire in silver and a 10 centesimi in bronze in another. All have the same obverse—a head to the left of Victor Emanuel III, who succeeded his father, Humbert, in 1900, with the inscription "Vittorio Emanuele III Re d'Italia." The reverse has a different arrangement, on the two designs, of symbolical figures of a male and a female in Grecian dress superimposed on a background of a ship with a symbol of agriculture in the foreground. On the 50 lire and the 5 lire the values are to the right of the figures with the dates 1861-1911 on their left, while on the two lower values this arrangement is reversed.

After the World War the unrest in Italy took the form of a struggle between the socialistic and the conservative factions. The latter finally triumphed in the famous march on Rome in October, 1922, when the Fascisti, under Benito Mussolini, through a coup d'état, seized control of the government. A year later two handsome gold coins were issued to commemorate this event. The obverse of the single design has a bare head of the King to the left with the same inscription as on the previous commemorative series. The obverse, of strikingly simple composition, bears the fasces in the center with the value 100 lire or 20 lire and a small "R" at the left and the legend "Ottobre 1922 . 1923" in three lines at the right.

The last 100-lire commemorative gold piece before the revaluation of the currency and the reduction in size of both gold and silver pieces does a double commemorative duty. It celebrates the twenty-fifth anniversary of the reign of Victor Emanuel III as the obverse indicates with its head of the King above a branch of a tree and the dates 1900-1925 below. The reverse pictures the second reason for a commemorative in 1925. Italy took nearly a year to make up her mind whether to join the Allies or the Central Powers in the World War, and this coin marks the tenth anniversary of her entry into the war in 1915. A nude male figure bearing a flag-staff with a streaming banner in his left hand and carrying a figurine of a winged victory in his right kneels on a rock inscribed "Vetta d'Italia." The figure separates the value "Lire—100" in the center and the dates "1915—1918" below.

The tenth anniversary of the conclusion of the World War was celebrated with a 20-lire piece in silver dated 1928. A helmeted head of the King faces the legend reading up on the left "Vitt. Em. III . Re ." The reverse, again a strikingly bold design, has the fasces arranged architecturally with a greatly enlarged axe head which partly surrounds a lion's head facing right. At the top is the single word "Italia." To the left of the fasces is the value L. 20. At the top of the pillar-like arrangement of the rods is the date 1918, and at the bottom 1928 and the year of Fascism 6, all dates in Roman numerals. On the axe head is a long inscription, which translated reads, "Better to live one day as a lion than a hundred years as a sheep."

A long series of eleven pieces in 1936 marks Italy's self-styled elevation into the ranks of the empires. A 100 lire and 50 lire in gold, a 20 lire, 10 lire, and 5 lire in silver, a 2 lire, 1 lira, 50 centesimi, and 20 centesimi in nickel, and a 10 centesimi and 5 centesimi in bronze comprise the series. The obverse of all bears a nude head of the King either to left or right and the legend "Vittorio Emanuele III Re e Imperatore" or some abbreviation of it. Although each denomination has a different reverse, each has incorporated the word "Italia" and the dates 1936 and XIV and the value. The central design on the 100 lire is a man walking, sword in hand, on the 50 lire the Roman eagle above two medallions with the arms of the House of Savoy and the symbol of Fascism. The 20 lire has the quadriga, four horses drawing a chariot with a seated female figure, the 15 lire a symbolical figure of Italy on the prow of a galley, the 5 lire a seated mother with two children on her lap and two more standing beside her. The three largest nickel coins have conventionalized eagles in different positions, while the 20 centesimi has a female head behind the royal and Fascist symbols. These

symbols with oak leaves and a wheat sheaf make up the obverse of the 10 centesimi, while the eagle is once more employed on the smallest piece, the 5 centesimi.

One other piece might be mentioned, although its standing as a coin is somewhat dubious. Of a handsome golden bronze composition, this was struck and issued at Milan for the Exposition of 1928. The obverse, with a head of the King to the right and the date below, has the inscription "Regnando Vittorio Emanuele III." The reverse comprises a nude man holding a fasces, mounted on a prancing horse which tramples under foot a snake; the legend "Capo del Governo. Benito Mussolini," designating Il Duce as head of the government; the value "Lira Due"; and a long inscription indicating that this is acceptable as legal tender within the fair grounds until a certain date.

The 1928 2 lire coined for the Milan Exposition was also struck in silver.

The International Exposition held in Milan in 1906 was also the occasion for the release of a 20 centesimi in copper, which showed upon the obverse a female head facing, and upon the reverse two wreaths and a scroll surrounding the value. Below is the inscription providing that the coin is legal money at the exposition only.

Coinage Of The Philippines Under American Dominion

By ROBERT H. LLOYD
North Tonawanda, N. Y.

PART 3

The author submits herewith comments on the mint of the Philippines located at Manila and opened in the year 1920. The table of coinage following this article was submitted through the courtesy of P. F. Abelino, Superintendent of the Mint, with the permission of Antonio Ramos, Insular Treasurer. The figures given are for the Manila mint only.

The author was quite puzzled over the fact that a statement of the coinage of the Philippines since 1903 submitted by the Manila Mint produced figures which did not correspond with those submitted by the United States mints. The author hazards a guess that the figures supplied by the Philippine Mint for coinage prior to 1920 were compiled on a basis of fiscal years, and as a result did not correspond to calendar year coinages.

Other activities of the Philippine Mint at Manila have consisted of the striking of medals to commemorate its inauguration in 1920. The minting was as follows:

"Wilson" medals, 1920—Silver, 2,200 pieces; Bronze, 3,700 pieces.

It will be seen from the above that the coinage was quite ample and in no way justifies the prices quoted in view of the fact that the medals were still obtainable up to recent months at their issue price, namely, \$1 for the silver and 50 cents for the bronze.

There were also minted in the year 1936, silver pieces to commemorate the founding of the Commonwealth Government of the Philippines in 1935. Herewith are quoted the coinages for these pieces:

Roosevelt-Quezon Peso	10,000 pieces.
Murphy-Quezon Peso	10,000 pieces.
Murphy-Quezon 50 Centavos	20,000 pieces.

Thus, ten thousand complete sets of three of these coins are available which roughly correspond to the issue of many American commemorative issues. Up to recent months these commemorative coins described above were available from the Manila Mint at the issue price of \$3.13 a set. This price did not include postage and insurance. Some enthusiastic Americans were able to merchandise them at over \$13 a set in this country.

The appearance of the new designs on Philippine coins in 1937 was somewhat disappointing due to the fact that the execution of the Commonwealth

arms produced a coin that was somewhat lacking in detail. All of the pieces could be improved by the omission of the eagle and a considerable increase in the size of the shield. Perhaps, also, it would have been an opportune time to revise the obverse designs and eliminate from the minor silver coins and the bronze cent the original designs of 1903.

It is to be hoped that future emissions from the Manila Mint will give us more attractive pieces than those turned out in 1937. Looking back over the entire coinage, it seems that Americans have not been greatly interested in the series as a whole. It is difficult to account for the fact that small quantities of Philippine coins are found in this country in spite of thirty years of association with the Islands.

A healthy importation of the issues since the Philadelphia Mint coinages would provide American collectors with ample varieties of mint marks and dates of all denominations.

The Philippine coins are worthy of a place in every American collector's cabinet.

Copper Coins Of Russia and Poland

By O. P. EKLUND
Spokane, Wash.

The inscriptions found upon Russian coins, usually the name and titles of the rulers, mints and values, are in Russian (Slavic) characters. A great number of restrikes of nearly every type of coins were made at the principal mints up to the year 1850, when, it is said, all of the old dies were destroyed by order of the Minister of Finance. Many of these restrikes are rare and highly valued by collectors in Europe.

The following article deals with coins struck for circulation only. The illustrations are made from coins in the writer's collection.

Original specimens are very rare. Several varieties are known—large and small eagles with round, square topped, or no shield upon the breast. A very rare variety shows the monogram of the Empress in place of St. George upon the shield, and another extremely rare one displays two Russian letters in relief on reverse. Other denominations—quarter, half and one rouble—were made, but not for circulation, only a few original specimens being known. Restrikes of the first three denominations are not very rare. 30. 2 kopecks, 1757-62. Similar, but the value above instead of below the horseman. Scarce. Most of the last two varieties were struck over one-kopeck pieces of the first coinage, some specimens showing the original lettering on the edge and the old date on the reverse, thus displaying two different dates on the same coin.

34. 10 kopecks, 1762. Similar but ten stars.

These coins are generally found struck over coins of the last reign. A one-kopeck of this type was struck, but not for circulation. It is exceedingly rare.

39. 5 kopecks, 1763-96. Obv., as preceding. Rev., the Russian Imperial eagle, the value upon a scroll below.

No. 39.

A large number of the last three denominations were struck over coins of the preceding reign.

In 1796 a new coinage, consisting of $\frac{1}{4}$, $\frac{1}{2}$, 1, 2, 4, 5 and 10 kopecks, displaying the monogram of the Empress and dots for values (on the larger denominations) on obverse, and value and date on the reverse, was inaugurated, but because of the death of the Empress in November that year it is said none of the coins were issued for circulation. Of the last denomination a large number were struck which were later restruck from old five-kopeck coin dies for circulation in the following reign. Many of these coins were so lightly struck that the old device, value, date, etc., is plainly visible.

Luther Portraits On Notgeld

By **M. H. MORGENROTH**
Kansas City, Mo.

A paper presented to the Columbus Convention of the A. N. A.

The Eisenach notgeld bills which I have are of two different series. The larger size bills are issued by the city as their regular notgeld issue, while the smaller size bills are issued in commemoration of Dr. Martin Luther's stay at the nearby Wartburg castle.

The larger bills have as their theme:

- | | |
|--------------------------------|-------------------------------|
| (1) Walter von der Vogelweide. | (2) The legendary Tannhauser. |
| (3) Saint Elisabeth. | (4) Wolfram von Eschenbach. |

Walter von der Vogelweide and Wolfram von Eschenbach were the most beloved minstrels of all times. Both participated in the famous contest of songs (or Sangerkrieg) on the Wartburg in 1207. Tannhauser is best known to the present generation as the principal of Richard Wagner's opera by that name, and offers a very interesting and intriguing study in human emotions as expressed in music as well as stage beauty. St. Elisabeth was the young wife of Landgrave Louis of Thuringia. She was the daughter of Andrew II, King of Hungary. She lived from 1207-1231. When she was but 4 years old she was betrothed to the oldest son of the Landgrave of Thuringia and taken to the Wartburg to be educated by her future parents-in-law. She was married at the age of 14. The picture shows her with an apron containing a profusion of roses. There is a very charming legend told. Elisabeth was ascetic in her tastes. She despised pomp and ambition and delighted in cultivating humility and benevolence. Her husband, the landgrave, often reproached her for her pity and charity of which she had become famous. Returning from hunting in the woods, he met her on the path which leads down from the Wartburg to the then small town of Eisenach, her apron full of alms for the needy. He suspected that she was bent on one of her customary errands of mercy, and when he compelled her to open her apron for him to see what it contained, she obediently displayed its contents, which, by a miracle, had been changed into roses.

The reverses of the above four bills are:

25 pfennig, showing in an inset the bust of Johann Sebastian Bach, the famous musician (inventor of counterpoint music), and on the sides the Bach House and the Luther House.

50 pfennig, showing in an inset the bust of Fritz Reuter, a popular dialectic home-town poet, and on the sides the Eisenach Marketfountain and the city hall of Eisenach.

75 pfennig, showing in an inset the bust of the immortal Richard Wagner, who lived there for a short time, and on the sides the Wartburg and the castle entrance.

Other large bills of regular issue of Eisenach notgeld show:

50 pfennig, St. George slaying the Dragon, the Patron Saint of Eisenach.

75 pfennig, Sir George (Junker Jörg), under which name Luther stayed at the Wartburg castle.

Commemorative of Dr. Martin Luther (Smaller in Size).

50 pfennig, Luther as small choir boy singing a carol with other children before the house of Mrs. Cotta, who is known to have been very kind to him. This is how the ambitious young children eked out a living while studying at schools at that time.

50 pfennig, the pseudo-capture of Luther on his return from the Diet of Worms. His friend, Frederick the Wise, had arranged to hold up the stage coach in which Luther was travelling, and he had him spirited away to seclusion in the Wartburg, May, 1521.

50 pfennig, Luther being received at the Wartburg.

50 pfennig, Luther as Junker Jörg (Sir George) translating the New Testament of the Bible from Latin into German.

50 pfennig, picture of Eisenach of the thirteenth century, with the Wartburg in the background.

50 pfennig, picture of the courtyard of the Wartburg.

Luther Commemorative Notgeld of the City of Wittenberg (Small Size).

The city of Wittenberg issued in 1922 notgeld bills, using on them portraits of Dr. Martin Luther, and they show that distinguished person as of different ages. All bills are of the 50-pfennig denomination. They are outstanding, as they are well-made copies in print of very famous etchings.

The poses are:

Luther as monk after an etching by Hans Weiditz in 1520. I have no record of Weiditz, but his form is much in line with Cranach or Albrecht Durer, and the original must be a scarcity of the highest order. I should like to learn where the original picture now is. All other portraits are by Cranach, who named himself after Cronach (Kronach), the town of which I mentioned in the above article.

Luther as monk in 1520.

Luther as young theological doctor.

Luther as Junker Jorg.

Luther as elderly citizen after a wood-cut by the famous Cranach.

NINETEENTH ISSUE OF SOCIETY OF MEDALISTS.

The nineteenth issue of the Society of Medalists, 119 East Nineteenth street, New York City, has just been sent to its members, and is illustrated here. (The illustration is reduced. The medal measures $2\frac{3}{8}$ inches in diameter.) The sculptor is Edward McCartan, of New York City.

The message from the sculptor is as follows:

"The broad Atlantic Ocean thankfully isolates us from forces which destroy life and liberty and which impede the normal pursuit of happiness. I have attempted to portray the fortunate position of the American home maker contrasted with her European sister who lives from day to day in a paralysis of fear and hate and regimentation. The Four Horsemen of the Apocalypse—Pestilence, Death, Famine, War—are riding high across the Eastern Hemisphere.

"I hope that in design and execution the medal has merit not only because it symbolizes the social forces which influence the lives of the Old World peoples and the New World peoples but also because it is a permanent, artistic record of rapid-fire events in 1939."

Editorial Comment—Numismatic News

NATIONAL COIN WEEK OBSERVANCE.

The report of Chairman Hammer on National Coin Week, published in this issue, shows that observance was general in all parts of the country and that coin collecting received much publicity through displays of coins, through the press and over the radio. The observance was a revival of a similar Coin Week several years ago, during which the program and all details were left entirely to the members and clubs. This year a more definite program was arranged by the committee, while at the same time the local clubs were given free rein for programs best adapted to their localities. It is not possible to determine at this time the extent of new interests created or latent interests stimulated by the observance, but the achievements of Mr. Hammer and his assistants in arousing interest among the members in Coin Week were outstanding.

It is a little remarkable that the prize for scoring the greatest number of points should go to a club less than a year old with a comparatively small membership—the Western Maryland Coin Club, of Cumberland, Md. The

second prize went to the Rochester Numismatic Association, one of the oldest local numismatic organizations in the country.

MR. EKLUND'S LIST OF COPPER COINS OF RUSSIA AND POLAND.

We publish this month the first of three installments of a list of the "Copper Coins of Russia and Poland," by O. P. Eklund, of Spokane, Wash. At intervals during the recent past Mr. Eklund has prepared similar lists of the copper coins of other countries and they have been published in *The Numismatist*. All have been profusely illustrated from specimens in the author's collection. Mr. Eklund is perhaps the outstanding collector of copper coins in the United States and is a recognized authority in his particular field. At this time, when the eyes of the world are centered on Russia and Poland, this list of coins will prove exceptionally interesting to all collectors.

National Coin Week Awards

Winners of the National Coin Week prizes were announced by J. Henri Ripstra, Chicago, Ill., President of the American Numismatic Association, as follows:

First Prize—Western Maryland Coin Club, of Cumberland, Md.; Second Prize—Rochester (N. Y.) Numismatic Association; Third Prize—Pacific Coast Numismatic Society, San Francisco, Cal. Honorable Mention winners were: Heart of America Numismatic Association, of Kansas City, Mo.; Northwest Coin Club of Minneapolis, Minn., and Buffalo (N. Y.) Numismatic Association.

The individual prize-winner was Charles Z. Mihalyi, Glenfield, N. Y., A. N. A. 6647. Individuals receiving honorable mention were H. M. Sidlett, of New York, N. Y.; W. W. Clarke, of Bantam, Conn., and A. L. Gray, Saginaw, Mich.

Comprising the judging committee were David M. Bullowa, New York City, chairman; Martin F. Kortjohn, New York City, and Lewis M. Reagan, Brooklyn, N. Y. Considerable credit must be given this committee, which had a difficult job—and a hard and tiring one. Mr. Bullowa, as Eastern chairman, was active throughout the project and was the author of the script "Money Talks" used by many speakers during the week's observance. Credit for the radio script, which also was used frequently, goes to President Ripstra, General Secretary M. Vernon Sheldon and Ted Hammer, Coin Week chairman.

Prizes for Coin Week winners were books selected by Chairman Hammer and purchased by the judging committee. They included: U. S. Commemorative Coins (Bullowa), Scott's Silver and Gold Coins, Our Metallic Money (Webb), and Coin Collecting (Joseph Coffin).

Forty-one clubs reported Coin Week activities to the chairman or through secretarial reports, but it is believed that nearly twice that many participated.

TED R. HAMMER,
Coin Week Chairman.

Following is the detailed report of Chairman Hammer of the National Coins Week Committee to President Ripstra of the A. N. A.:

Herewith is my report on National Coin Week, sponsored by the American Numismatic Association, March 25 to 31, 1939:

We definitely know of 41 clubs participating, but the number probably is nearer 75; the 41 were those reporting activities between February 1 and March 30. There also were many individuals who were not members of local clubs who took an active part by having displays, making talks, etc.

Cost of Coin Week totaled \$52.99 (\$2.99 more than the original estimate by your chairman, but \$47.01 less than the A. N. A. budget). This includes all expenditures, from prizes to mimeograph (listed in the statistical report as stenographic aid) work, materials and postage, which was a big item, including display cards, bulletins, first-class mail, etc.

Definite figures on the number of new club members and A. N. A. figures are not obtainable because all clubs failed to report on this. Secretaries and presidents were cooperative throughout and many offered excellent suggestions for the current observance and those of the future. The only criticism coming to the ears of your chairman were those of the earlier bulletins, mimeographed on cheap paper to hold down expenses. Your chairman takes responsibility for this, going against the advice of more experienced members of his committee. This was corrected with the purchase of a better grade of regular mimeographing paper.

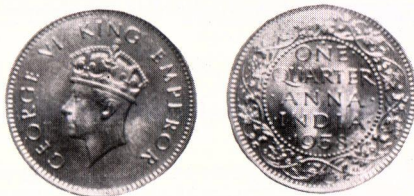

Recommendations for the future include: That the A. N. A. sponsor Coin Week every year; that publicity begin at least four months in advance; that all bulletins, talks, publicity material, etc., be printed rather than mimeographed; that a secretarial aid be provided for two to four weeks (about four to eight weeks before week opens) so that correspondence with every club will be possible; that some inexpensive medal be struck by the A. N. A. to be given each club participating, and that the chairman of each club's participation committee be given such a medal.

The chairman desires to thank especially: David M. Bullowa, New York City, Eastern Coin Week chairman, and who wrote some 25 letters in all to the chairman and who gave freely of his time and talent for this project; Julius Gutttag, of New York City, for his friendly advice, encouragement and worth-while tips which helped over the rough spots; Harvey Hansen, of Alameda, Cal.; Roy Hill, San Francisco, Cal.; V. Leon Belt, Waterloo, Iowa; Ed and Kenneth Lee, of Glendale, Cal., who among other things wrote clubs and individuals and put out display cards at their own expense; Oscar Schilke, Waterbury, Conn.; Bill the Coin Man, Elkhart, Ind.; Richard Cabelen, Chicago, Ill.; Frank G. Duffield, Baltimore, Md. (not only for his publicity help in *The Numismatist*, but for his personal efforts as well); Lee Hewitt, Chicago, Ill.; Martin Kortjohn, New York City; Lewis M. Reagan, Brooklyn, N. Y.; Frank C. Ross, Kansas City, Mo.; Frank Wilson, New York City; Moritz Wormser, New York City; James Kelly, Dayton, Ohio; M. Vernon Sheldon, Chicago, Ill. (who took time off from his General Secretary of A. N. A. duties and those of compiling *The Numismatist* index); J. Henri Ripstra, genial President of the A. N. A., who jumped in and helped when the going was bad and when encouragement was needed most (early in the campaign); and to many, many others who played varied parts.

Exhibit Of Washington Coins For Fair Visitors

Six Hundred Washington Items Displayed In Chase Bank Exhibit To Commemorate World's Fair Opening.

Visitors to the New York World's Fair in honor of the 150th anniversary of the inauguration of George Washington as President will find over 600 items of money bearing the likeness of Washington in the Chase National Bank Permanent Collection of Moneys of the World, 46 Cedar Street, New York City. These Washington items, comprising bills, notes, revenue stamps and coins, are only a part of the more than 50,000 pieces of money comprising the Chase collection, one of the most comprehensive in the world. The earliest Washington item is a coin privately minted in 1783 which shows Washington crowned with laurel and wearing a toga. The smallest likeness of Washington, the size of a baby's thumb-nail, appears on a \$10 bill issued in 1860 by the Bank of the State of Georgia at Savannah. An amusing item is the \$1 silver certificate of 1896 with portraits of George and Martha Washington. Legend has it that the bill was withdrawn on the grounds that no "one" should come between man and wife. Also in the collection is an original check made out by Washington for \$113.02, payable to Luke Tiernan, June 13, 1799.

World's Fair visitors will be interested particularly in the section of the Chase collection devoted to the development of money in this country—from the various types of wampum used by Indians and early traders (shells, beads, caribou teeth, furs, skins, woodpecker scalps, human hair, peach pits, arrowheads, feathers, etc.) to present-day sales tax tokens. The collection takes the visitor right back to the Joachimthaler, which was the origin of our word "dollar."

First struck between 1517 and 1525 by a tiny Bohemian principality, the Joachimthaler (literally, Joachim's valley) was honest in weight and fineness and convenient in size and soon became the prototype of similar coins throughout Europe. The word was shortened and "thaler" became "daler" in Scandinavia, "daalder" in the Low Countries, "tallera" in Italy, and eventually "dollar." Known as the "peso" in Spain, when minted by the Spanish Colonies in America, it was called the Spanish milled dollar, the standard unit of currency in the American colonies.

Among the earliest American coins on show is the Pine Tree shilling of "Masathusets," associated with Hawthorne's story of "Grandfather's Chair." John Hull of Boston is said to have minted \$5,000,000 worth of silver into these coins from 1652 to 1686 in a little building at the back of his home on Tremont Street.

Another prominent American item in the Chase collection is the Fugio cent of 1787, the first coin issued by the United States. On one side of the coin appears the slogan "We Are One," bordered by a closed chain of 13 links symbolizing the unity of the 13 Original Colonies, and on the other the terse advice, "Mind Your Business."

Chase Bank Money Exhibit Celebrates Tenth Anniversary.

The Chase Bank Collection of Moneys of the World celebrated its tenth anniversary on May 13, it was announced by Farran Zerbe, noted numismatist, curator of the collection. One of the most comprehensive exhibits of all

types of money of all ages in the world, the collection includes more than 50,000 specimens.

Established on May 13, 1929, in the ten years it has been on display, the exhibit has been visited by more than 121,000 persons from every State of the Union, every Territory and possession, and from 39 foreign countries. Because of its educational interest, the collection is made the object of study by over 100 school and college classes each year. The collection is also made available throughout the country by means of travelling exhibits displayed by banks and department stores. It is estimated that an average of 20 such exhibits are sent out each year.

The collection, located at 46 Cedar Street in a building adjoining the head office of the Chase Bank, is open to the public daily except Sunday.

NEW OR RECENT ISSUES.

British Honduras—Silver 10 cents, nickel 5 cents and copper 1 cent, all dated 1939, with head of George VI on obverse. The designs are by Percy Metcalfe and differ from preceding issues in the head of King George VI. British Honduras is the only colony of a European power in Central America. (Specimens from the New Netherlands Coin Company, New York City.)

BUSINESS OF DR. HANS NUSSBAUM BEING LIQUIDATED.

David Nussbaum, Bahnhofstrasse 32, Zurich, Switzerland, announces that he has been charged with the liquidation of the coin business of his son, Dr. Hans Nussbaum, who perished in an airplane disaster near Paris on January 7, 1939. It is hoped to complete the liquidation of the business within a year. Mr. David Nussbaum was formerly connected with the numismatic firm of Leo Hamburger, in Frankfurt-a-Main.

NEW OR RECENT ISSUES.

Newfoundland—Silver 5 cents and 10 cents with head of George VI, dated 1938. The copper cent was illustrated in our March issue. (Specimens from Tatham Stamp and Coin Company, Springfield, Mass.)

CENTRAL STATES NUMISMATIC CONFERENCE.

The Central States Numismatic Conference was held at the Congress Hotel, Chicago, April 22 and 23. The registration book showed 190 registered, but there were a number present who neglected this formality. The attendance included a number from a distance.

The time up to 3 P. M. Saturday was devoted to registration, placing of exhibits, etc. At 3 o'clock a movie, "Making a Medal," was shown, narrated by J. Henri Ripstra.

The banquet was held at 6 o'clock, with William G. Rayson acting as toastmaster. The speakers included Dr. J. M. Henderson, Alden G. Boyer, J. Henri Ripstra, Lee F. Hewitt, R. L. McBrien, Ted R. Hammer, William Brimelow, Herbert W. Walker, Harry Boosel and M. V. Sheldon.

An auction sale occupied the time from 9 until 1 o'clock, the 259 lots bringing over \$600. The ladies played cards during the sale.

The obverse die of this token was used in 1864 to strike political tokens for Abraham Lincoln's second presidential campaign.

A souvenir of the
Central States Numismatic
Conference
Chicago, April 22-23, 1939

Sunday morning's program started with a discussion of club activities, and about twenty persons took part in the speaking, each telling what his club had found to be the most successful.

Mr. Sheldon told about the "reverse electro-plating" process of cleaning coins, and others told various methods of cleaning.

A permanent "Central States Numismatic Society" was organized. Arthur B. Kelley, of St. Louis, was elected president; R. E. Davis, Chicago, first vice-president, and Hubert L. Polzer, Milwaukee, second vice-president. Nine directors were elected.

About 1,000 persons viewed the exhibits in the two hours the display was open to the public. Many stayed in the exhibit room in the afternoon and others visited points of interest in the city.

MISSOURI STATE NUMISMATIC ASSOCIATION ORGANIZED.

The Missouri State Numismatic Association was organized April 16 in St. Louis, Mo., at the home of Arthur B. Kelley. J. Henri Ripstra, national President of the American Numismatic Association, assisted by M. Vernon Sheldon, Secretary of the American Numismatic Association, was in attendance at this meeting.

Mr. Ripstra acted as temporary chairman and Mr. J. S. Stevenson, temporary secretary. Mr. Ripstra outlined advantages of a State association and spoke of work being done by other State associations.

The following officers were elected: President, H. E. Rowold, Kansas City, Mo.; secretary, Max Morgenroth, Kansas City, Mo.; treasurer, C. W.

Lounsberry, St. Louis, Mo.; vice-president, A. B. Kelley, St. Louis, Mo. Board of Governors: H. Nowlin, Kansas City, Mo.; W. Rauert, St. Louis, Mo.; G. G. Paris, Kansas City, Mo.; F. C. Ross, Kansas City, Mo.; John Snow, St. Louis, Mo.; S. Bushnell, St. Louis, Mo.; J. S. Stevenson, St. Louis, Mo.

Mr. Rowold was appointed to draw up a Constitution and By-laws. The date of first meeting will not be decided until a later date.

NUMISMATICS AT THE SMITHSONIAN INSTITUTION.

The report on the progress and condition of the Smithsonian Institution, United States Museum, Washington, D. C., for the year ended June 30, 1938, contains several references to the collection of coins and medals housed there, from which we make the following extracts:

From the Division of History, Theodore T. Belote, Curator:

"The series of awards and personal mementos relating to the history of science was enriched by the gift of a number of gold medals, academic hoods, and other objects pertaining to the scientific career of Dr. Charles D. Walcott, Secretary of the Smithsonian Institution, 1907-1927. These objects, which were presented by Mrs. Charles D. Walcott, included the J. J. Bigsby medal awarded to Dr. Walcott in 1895 by the Geological Society of London; the F. V. Hayden medal awarded to him in 1905 by the Academy of Natural Sciences of Philadelphia; the Wollaston medal awarded to him in 1918 by the Geological Society of London; the Mary Clark Thompson medal awarded to him in 1921 by the National Academy of Sciences; the Albert Gaudry Prize plaque awarded to him in 1917 by the Geological Society of France. . . .

"To the numismatic collection there came from the Treasury Department examples of the United States coins struck at the Denver, Philadelphia, and San Francisco mints in 1937 and a bronze medal commemorating the appointment of Mrs. Nellie Tayloe Ross as Director of the Mint in 1933.

"Examples of the following commemorative half-dollars were received: From the Antietam Celebration Commission, two examples of the Antietam half dollar; from the Arkansas Centennial Commission, two examples of the Arkansas Centennial half dollar; from the Daniel Boone Bicentennial Commission, one example of the Daniel Boone half dollar; from the manager of the Norfolk Advertising Board, two examples of the Norfolk half dollar; from the Pennsylvania State Commission, two examples of the Gettysburg half dollar.

"A lot of current foreign coins was received from the American Numismatic Association as an addition to the large loan collection of this Association and includes specimens from Austria, Belgium, Denmark, Germany, Great Britain, Hungary, Italy, Lithuania, Poland, Rumania, Sweden, and Switzerland, as well as examples of many coins struck in 1936-37 for circulation in various other parts of the world.

"A number of interesting medals were added to the numismatic collection, including a bronze medal commemorating the invention of the bifocal lens by Benjamin Franklin in 1784 from the Bausch & Lomb Optical Co. . . .

"Three important jobs were completed during the year in connection with the numismatic collection. The series of silver coins was cleaned; the entire collection was reinstalled in accordance with a fixed topical and chronological scheme of arrangement; and the exhibition series was enriched by the addition of many specimens not previously exhibited. This work entailed the individual handling of thousands of specimens and the verification of a corresponding number of labels and records.

"The collection of United States medals was completely reinstalled, and several new medals were added. The entire series was divided into the following groups: Local medals of award; local commemorative medals; local portrait medals; national medals of award; and national commemorative medals. Each of the groups includes many medals of special historical and numismatic interest. The series is of special interest also from the viewpoint of portraiture and is an expression of the local interest in various phases of American biography. The present arrangement of the hall renders it easy for the visitor to locate any one of the groups.

"A number of mechanical improvements were made in the methods of exhibiting the collection, including a more regular arrangement of the shelving, the relining of several cases, and the adoption of a type of label especially suited to indicate the historical significance of the main types of material shown in the numismatic hall. . . .

"Cooperation with societies and institutions included the installation of a special exhibition of coins in the Natural History Building on the occasion of a lecture given by William M. Simpson, under the auspices of the Twentieth Century Club, on the making of coins and medals. . . .

"The curator has assembled much data in connection with the narrative history of numismatic materials, the classification of such materials, and the best methods of utilizing them in the general field of historical museum work. As the result of research of this character an entirely new concept of the science of numismatics will eventually result, and the advantages to be derived from the proper use of numismatic materials in the museum field will be made clear to the student and to the general public. . . ."

The report also gives a detailed list of accessions, among which is the following:

"American Numismatic Association, New York City, through Moritz Wormser: 109 coins from Australia, Austria, Basque Republic, Belgian Congo, Belgium, Brazil, Canada, Costa Rica, Denmark, Dutch East Indies, Eastern Mongolia, Egypt, Fiji, Germany, Great Britain, Hungary, Jersey, Hyderabad, Iraq, Italy, Jamaica, Liberia, Lithuania, Mexico, Mozambique, New Zealand, Philippines, Poland, Rumania, South Africa, Southern Rhodesia, Sweden, and Switzerland, struck 1933-38 (144528, 147070, loans)."

FIFTH FAR WESTERN NUMISMATIC CONFERENCE.

J. Henri Ripstra, President of the A. N. A., has written the following letter to Harvey L. Hansen in connection with the Fifth Far Western Numismatic Conference:

Fifth Far Western Numismatic Conference,
Harvey L. Hansen, General Chairman,
729 Pacific Avenue, Apt. D, Alameda, California.

Greetings: To the Officers and Members of the Conference:

It is with much regret that I am unable to attend the Fifth Far Western Numismatic Conference; however, it gives me great pleasure to extend to you the best wishes of the American Numismatic Association, with the sincere wish that your conference meets with everything that spells success.

Our Association is solicitous in having regional meetings in various parts of the country because of their exceptional value in the furtherance of the science of numismatics and for the promotion of good will among numismatists.

I am especially pleased that a special feature of your Conference will be the participation of the Junior Coin Collectors of San Francisco. At this

time I want to congratulate Mr. Roy Hill for the splendid work he is doing with the Junior group. Too much attention cannot be paid to our youth, because the boys of today will be the men of tomorrow, and to have successful men tomorrow we must do all we possibly can to guide and assist the boys of today. Remember our youth!

Wishing the Fifth Far Western Numismatic Conference the much-earned success that all laudible undertakings deserve, I remain

Cordially and sincerely yours,

J. HENRI RIPSTRA,
President, A. N. A.

Deaths.

PRESTON CHARLES POND.

Preston C. Pond, owner of one of the most extensive paper money collections in the country and for nearly a half century one of Chicopee's foremost social and civic service workers, died suddenly at his home, 81 Fairview avenue, Chicopee, Mass., on May 3. He was further distinguished through his collection of tuberculosis and health seals, United States stamps, gold and silver coins and Presidential Medals. Mr. Pond was particularly well known in Hampden county as treasurer for many years of the Hampden County Tuberculosis and Public Health Association, and a director of the Hampden County Improvement League. He was 79 years old and had been a member of the A. N. A. for many years, as well as the Springfield Coin Club, of which he was a past president.

In 1918 Mr. Pond was elected vice-president and treasurer of the Cabot Trust Institution and held the positions up to 1933, when he succeeded Emerson G. Gaylord as president, the latter retiring to a chairmanship of the board of directors. Mr. Pond had been for many years associated with other Chicopee banks. At the time of his death he was a member of the board of investment of the Chicopee Savings Bank, largest bank in the city, and a director of the Chicopee Cooperative Bank, largest bank of its type in the city.

He was a member of many of Chicopee's societies and organizations, including the Masonic fraternity.

CORRECTION.

In our May issue the paper on "The Lives and Coinages of Caracalla and Elagabalus," by Lewis M. Reagan, Brooklyn, N. Y., was inadvertently printed without a line identifying it as one of the papers presented to the Columbus (Ohio) Convention of the A. N. A. We regret the omission.

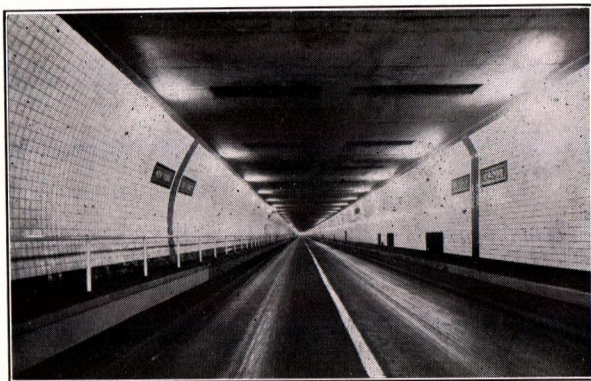

PAPERS FOR THE NEW YORK A. N. A. CONVENTION.

In recognition of his splendid services in obtaining papers for the last A. N. A. Convention at Columbus, Ohio, David M. Bullowa, 95 Fifth Avenue, New York City, has been appointed for a similar service for the coming New York Convention. Members contemplating preparing papers should correspond with Mr. Bullowa. He requests that all papers for the convention be submitted in typewritten form.

A. N. A. Convention New York City September 30—October 5, 1939

**And the
World's Fair**

All seven of the numismatic organizations in the New York metropolitan area will be hosts to the American Numismatic Association at its convention in that city, September 30 to October 5, 1939. This combination of active, energetic and enthusiastic numismatists will put on a show that will probably eclipse all previous A. N. A. conventions—and there have been some good ones. The World's Fair will be entirely completed long before convention time, and with all arrangements for a successful numismatic gathering in competent hands we predict a record-breaking attendance.

Holland Tunnel.

Vehicular passage under Hudson River, connecting
New York and New Jersey.

In the succeeding issues of *The Numismatist* before the convention we hope to give more details of what is being done by the local committee for entertainment for the visitors. At this time some preliminary announcements are in order, as follows:

New York A. N. A. Convention Room Reservations.

As headquarters for the 1939 New York Convention, Hotel Pennsylvania, 33rd Street and Seventh Avenue, has been selected.

This is one of the finest hotels in New York, centrally located, and the excellence of its service is vouched for by the fact that it is one of the Statler chain.

Contrary to a good many rumors, there will be no increase in the regular

room rates for those attending the Convention. **But it is very important that reservations be written for to the Hotel direct as early as possible, stating that application is in connection with the A. N. A. Convention.**

The rates will be as follows, each room with private bath or shower:

Single rooms per day, \$3.50 to \$6.00.

Rooms for 2 per day, double beds, \$5.00 to \$9.00, or twin beds, \$6.00 to \$10.00.

Three persons in one room, \$7.00 to \$12.00.

Send your reservations early to Hotel Pennsylvania, attention of Mr. James M. McCabe, manager, New York, N. Y. Or for copy of exact rate card, including request for reservation, write to

F. C. C. BOYD, Chairman,
Convention Committee on Hotel Arrangements,
237 E. 20th Street, New York, N. Y.

Convention Exhibits.

If you plan to attend the New York Convention, it is hoped that you will bring with you an interesting and varied exhibit of material from your cabinet to show to your fellow-collectors.

Ample exhibition space under safe conditions is planned for by the convention committee, and it is desirable that you notify the committee as early as possible about how much space you wish reserved, and especially what numismatic topic your exhibit will cover.

Your are urgently requested to write for space and communicate all data to

WILLIAM S. DEWEY,
Chairman Convention Committee on Exhibits,
186 Beechwood Ave., Mount Vernon, N. Y.

Convention Program Advertisements.

The New York Convention Committee is planning the issue of an attractive Convention Program, and dealers, collectors, members and business friends of the Association are urged to patronize its pages as advertisers.

The intention is to distribute this program to the entire A. N. A. membership and to those in attendance at the convention.

If you will avail yourself of this opportunity to secure publicity for your numismatic activities, and to help toward the success of our convention by your advertising patronage, you are requested to write for details to

MARTIN F. KORTJOHN,
Chairman Convention Committee on Program,
10 E. 40th Street, New York, N. Y.

THE BRONX COIN CLUB—Sixty-eighth meeting, April 26th, President Stein presiding. Twenty-eight members and ten guests were present.

President Stein welcomed our two guests of the evening, Messrs. Noe and Mabbott, who both spoke briefly and expressed their pleasure at being present.

The president then called for the papers of the evening which were as follows:

All four papers were enthusiastically received, in particular Mr. Holzer's, which was a model of thoroughness and research into a field hitherto unwritten.

Professor Mabbott then spoke interestingly about the two papers by Mr. Stein and Mr. Holzer, and added to what both had said. Professor Mabbott discussed the rarer Roman Emperors and Empresses' coinage of silver, gold and bronze, from specimens which he had seen or knew of, through plaster casts which he brought with him. SIDELIGHTS ON ENGLAND'S COINAGE FOR 1938.

During 1938 there was a brisk demand for coins in England, and, although the quantity issued by the Royal Mint shows some falling off from the exceptional figures of 1937, it is much above the average for recent years. For the first three months of the year the mint staffs worked in double shifts—a course which had been adopted in the autumn of 1936 to enable the authorities to meet the remarkable expansion in the demand for coinage. This increased demand was due in part to the additional industrial activity caused by rearmament and in part to those unknown factors which for no apparent reason cause wide fluctuations in the calls for coins. These changes in public demand mystify the Royal Mint as much as they do the banks. In March the situation had eased sufficiently to allow the resumption of normal working hours at the mint.

Silver coins issued in 1938 totalled 44,210,956, compared with 66,689,383 in 1937. The sixpence was, as usual, the most popular silver coin and accounted for 13,344,438. Shillings came next with a total of 10,115,907. The popularity of these two coins was partly due to the widespread use of coin-operated gas and electricity meters and cigarette machines. Large quantities of shillings and sixpences were required to supply new building estates, particularly on the south and southeast coasts, where most houses are equipped with coin-operated meters.

Included in the 1938 total were 123,789,600 pennies. It is interesting to note that the number of pennies issued was more than double that of all the silver coins combined. Halfpennies amounted to 41,572,800, and this figure is noteworthy because it is the largest of any year since the bronze halfpenny was first struck in 1860. Farthings issued in 1938 totalled 7,449,600. Why farthings continue to be issued by the million each year is something of a mystery. For some reason farthings never wear out, and consequently they are never withdrawn from circulation as worn coin. The total number of farthings put into circulation is now 449,347,200, but no one seems to know where they have gone.—London Times.

COMMITTEE ON FIFTY-YEAR INDEX.

And Again—

I am proud to announce another and even greater Collection than the Clarke Silver Collection I announced last month.

I am now happy to announce the acquisition of

THE WILLIAM B. HALE COLLECTION

Of Rochester, New York.

One of the most complete Collections of U. S. Coins to ever come on the market. With few exceptions, this Collection is COMPLETE from Half Cents to \$20.00 Gold of all Mints. Rarities too numerous to mention here. Sale in Fall.

This Collection has a catalog value of approximately Sixty Thousand Dollars (\$60,000.00.) Besides coins, it contains an extensive collection of Fractional Currency, including the Allison and New note, and an extensive specialized collection of Confederate Currency, with all rarities.

Don't you think it will pay you to be on my "Mehling List"? And don't you think it will also PAY YOU to write me before you dispose of your Collection?

WHY NOT WRITE AND GET OUR QUOTATION?

DO YOU COLLECT POSTAGE STAMPS?

We know from experience that most Numismatists are also Philatelists. Possibly you have overlooked our Philatelic Department, which is one of the largest in America. We know that our prices are considerably less than our competitors, and to prove this point we are listing a few collections from our comprehensive stock. Incidentally, we always recommend that a collector purchase the largest collection he can afford. In this manner, whether he is a beginner or thoroughly advanced, he has the opportunity of acquiring stamps at the lowest possible price and any duplicates can usually be sold, or traded for new material profitably.

30,000 VARIETIES

This unique collection is world-wide in scope. It is mounted in several volumes alphabetically by countries in chronological order so that it may be later transferred to your albums without the slightest inconvenience. The collection is very strong in medium-priced 20th Century issues that are in the greatest demand today. You will find thousands of pictorials, commemoratives and airmails, British, French and Portuguese Colonies, South and Central America and hundreds of other fine stamps that are so popular with the great majority of stamp collectors. There are many short and complete sets running up to the high denominations.

The Scott Catalog price of this collection is conservatively estimated at around \$4000.00. To build up such a representative collection by acquiring the stamps individually would require months of tiring effort and a much larger investment than the conservative price quoted below, **which is less than 2c. per stamp.** If you analyze our price carefully you will find that it is about one-third the present retail price offered elsewhere.

30,000 VARIETIES, MOUNTED—\$525.00.

Other Large Variety Stamp Collections.

20,000 VARIETIES	A smaller edition of the 30,000 variety collection. Mounted in twenty volumes with an estimated catalog price of \$1200.00. Our price about one-sixth of catalog price, or but 1c. per stamp!	PRICE \$200.00
-----------------------------	---	---------------------------

10,000 VARIETIES	This is the most popular collection we stock and very moderately priced! The catalog price is estimated at \$500 and the quality is exceptional. Mounted in ten volumes of 1,000 stamps each.	PRICE \$48.50
-----------------------------	---	--------------------------

5,000 VARIETIES	Total estimated catalog listing of this collection is \$150. A very popular group of stamps.	PRICE \$11.50

which have taken place in Europe during the last few years are not without their Numismatic interest.

NEW YORK INVITES YOU

TO THE

1939 A. N. A. CONVENTION

It is important that you make your vacation plans now so as to include attendance at the New York Convention.

As a good Numismatist and as a loyal Association member you owe it to yourself and the Association to be with us and to help make the Convention a success.

It is 17 years since New York last had an A. N. A. Convention, and both New York and the Association have grown during the intervening years. This year's Convention has three big points to offer:

Come to see the attractions of the metropolis of the World, New York itself;

Take a view of the future through a visit to the World of Tomorrow, the New York World's Fair;

And last but not least enjoy the numismatic treat of a Convention with your old friends of the past and new friends that have joined our ranks, and view the numismatic treasures which will be displayed.

And here is just a suggestion: Plan to spend some extra time in New York before and after the Convention; for there will be much to see and much to do around the big city, and the big World's Fair.

This New York Convention will be unique, as our invitation is extended to you not by the New York Numismatic Club alone, but associated with it and cooperating with it in our entertainment efforts will be all the Metropolitan New York Numismatic Societies, viz.:

The American Numismatic Society.
The Bronx Coin Club.
Brooklyn Coin Club.
Chase Bank Coin Society.
Jersey City Coin Club.
New Jersey Numismatic Society.
Westchester County Coin Club.

All of these organizations and their individual members will try to show you a great time.

It should be YOUR objective to help us make the Convention a success, to give us the pleasure of your attendance, to bring your family and last but not least to bring with you interesting exhibits to show to your fellow collectors.

We shall try mightily to do our part and we need your help to do your part.

Remember the dates—September 30 to October 5th, the pleasantest time of the year—and the place, New York City,
Hotel Pennsylvania.

PLAN TO COME—NEW YORK INVITES YOU.
